

Double wall tubes with a corrugated outer layer and a smooth inner layer, manufactured in fireproof polyolefin.

Uses

Suitable for flush mounting to protect the electric conductors.

Characteristics

Colours	White	Compressive strength	320N
Fire behaviour	Non flame propagation	Bending resistance	Pliable
Packing	50 m. rolls	Impact resistance	2J
Standard	UNE-EN 61386-22	Maximum temperature	90°C
Electrical properties	Insulating	Minimum temperature	-5°C

Technical data

Diámetro nominal	Diámetro exterior mm	Tolerancias mm	Diámetro interior aproximado mm
40	40	0.8	30
50	50	1	37
63	63	1.2	47
90	90	1.7	67
110	110	2	82
160	160	2.9	120
