

Double wall pipes with the corrugated outer layer made of high-density PE and the inner layer of low-density PE.

Uses

Suitable for installation buried in the ground with protection of an additional concrete layer. Indicated for the installation of electrical networks, telecommunication lines, water pipes, gas pipes, etc.

Characteristics

Colours	Red or Green	Bending resistance	Bendable
Packing	Rolls	Impact resistance	3 J for 40 y 50, 6 J for 63, 75 y 90, 12J for 110 y 125 y 15 J for 160, 200 y 250
Level of protection	IP 54	Minimum temperature	-5 °C
Standard	UNE-EN 61386-24	Connection	Sleeves
Compressive strength	250 N		

Technical data

Diámetro nominal	Diámetro exterior mm	Tolerancias mm	Diámetro interior mínimo mm
40	40	0.8	30
50	50	1	37
63	63	1.2	47
75	75	1.4	56
90	90	1.7	67
110	110	2	82
125	125	2.3	94
160	160	2.9	120
200	200	3.6	150
250	250	4.5	188
