

This type of cabled assembly consists of many H07Z1-K (HS) cables to make the installation easier.

Uses

Suitable for flush mounting. Specially recommended for individual branching.

Characteristics

Insulation	 Fireproof polyolefin according to UNE-211002	Sections	 1,5 a 240 mm²
Conductor	 Copper class 5 according to UNE-EN 60228	Temperature	 70°C
Packing	 Reels	Test voltage	 2500V
Standard	 UNE 211002 (single core cables)	Rated voltage	 450/750V
